

## DRIVING CHANGE: THE ULTIMATE EV NETWORK PARTNER

**From Coverage Gaps to Full Connectivity:  
We Fill the Voids.**

EV Charge Network Operators face real challenges: consistent connectivity in busy cities, signal issues in remote areas, and blind spots in parking garages. With each installation, the complexity increases. Ensemble Solutions Group is here to make it all simpler.

### Why Ensemble Solutions Group:

Turning tech complexities into simple, reliable solutions. We make IoT as Easy as Flipping a Switch!

### Technology Essentials

- **Connectivity:** Industrial 4G/5G modems for uninterrupted service and durability.
- **Antennas:** Tailored for diverse environments.
- **Design & Installation:** Comprehensive planning and professional setup.
- **Security:** Advanced network protection and surveillance solutions.
- **Data:** Flexible offerings compatible across all geographies and network providers.
- **Accessories:** Everything you need for a complete build-out.
